

HARVEST TABLE POS

Checkout. Inventory. Vendor accounts.

More time for your market.

Point of sale for farm stores, consignment shops and retailers carrying products from local growers and makers.

Keep checkout moving.

Find products and variants, use favorites and discounts, and keep sales connected to your inventory. Use receipts and customer selection to support your counter workflow.

Know what each vendor is owed.

Track commission or shelf-rental arrangements. Record weekly or partial payouts, keep unpaid earnings visible and save monthly statements.

Keep prepaid rent accounted for.

Record rent or fees paid separately or in advance. Review outstanding fees and credits before the next payout.

Keep your catalog useful.

Manage product photos, variants, receiving and physical stock counts. Review products for missing categories and check vendor items in your catalog.

See your shop's workflow in action.

Request a guided demo: a sale, a vendor payout and a prepaid rent example.
